### 7.1 Introduction to the QualityBLUE Fee-for-Service Program

| Purpose                     | In July of 2005, Highmark Blue Shield began an additional Quality Incentive<br>Payment System (QIPS) Program in a Fee-for-Service (FFS) environment to<br>encourage physicians to continue to support Highmark's goal of providing<br>accessible, high-quality health care as efficiently as possible. The name also changed<br>from QIPS to QualityBLUE, A Physician Pay-for-Performance program.<br>In January 2007, the QualityBLUE capitation incentive program was eliminated<br>based on the elimination of base capitation. The FFS incentive program remains<br>active. |
|-----------------------------|---|
| Definition                  | <ul> <li>QualityBLUE is an incentive program that offers Primary Care Physicians (PCPs) (family practice, internal medicine, pediatric, and general practitioner specialties) an opportunity to earn an additional reimbursement for providing efficient, high-quality health care.</li> <li>The QualityBLUE FFS program is a reward program offered in addition to the fee schedule.</li> <li>The QualityBLUE FFS program will focus primarily on quality and efficiency measures.</li> <li>There are two components of the program: reports and payments.</li> </ul>          |
| Eligibility<br>Requirements | <ul> <li>PCPs can qualify for participation in the QualityBLUE FFS program once the provider meets the following eligibility and quality requirements:</li> <li>Our Network's Professional Agreement</li> <li>NaviNet enabled</li> <li>A 12-month practice volume of: <ul> <li>\$40,000 of paid eligible Evaluation &amp; Management (E&amp;M) services.</li> <li>85% of claims submitted electronically.</li> </ul> </li> <li>Achieved a minimum Total Quality Score – this applies only if above requirements are met.</li> </ul>   |

| Prospective<br>Only - Moving<br>Forward<br>Quality<br>Incentive Pay<br>For<br>Performance                                  | The calculation of the pay for performance quality incentive will be evaluated quarterly, and will pay prospectively. Once the notification of the signed agreement is received, and the eligibility and minimum quality requirements are met, the incentive payments may begin. No quality scoring or payment retroactivity will be calculated on evaluation and management services paid prior to the notification of the agreement. No claims adjustments will be calculated on evaluation and management services paid prior to the agreement. |
|--|--|
| Practitioner<br>Agreement -<br>Participation<br>In The<br>Western<br>Region<br>Network<br>And/Or<br>PremierBlue<br>Network | Even though a physician practice may be credentialed in both the Western Region<br>Network and PremierBlue networks, physician practices may only sign the<br>Practitioner Agreement and participate in either the Western Region Network or<br>PremierBlue QualityBLUE incentive. The review of the incentive eligibility and<br>minimum quality requirements will only generate one performance detail report. If<br>you have any questions, please contact your Provider Relations representative.  |
| -<br>Practitioner<br>Agreement -<br>Listing of<br>Practitioners  | Each practitioner in a physician practice should be credentialed in the Western<br>Region Network or PremierBlue network prior to participation in this quality<br>incentive program. The Western Region Network and/or PremierBlue fee schedule<br>and applicable incentives should be paid to participating physician practices only.  |

#### Ongoing Changes To The Program

This program continually evolves to meet the needs of Highmark and the Western Region Network practitioners. Accordingly, this program will be revised from time to time. Notice will be communicated by a separate letter mailed to your practice, and identified in the Special Bulletin or Clinical Views.

### 7.1 The QualityBLUE Fee-for-Service Detail Report – Quality

| The Fee-for-<br>Service Detail<br>Report   | The <i>QualityBLUE FFS Detail Report – Quality</i> , varies in length based on the type of specialty or detail used for each category and available data, and is generated quarterly based on:   |
|--|--|
|  | <ul> <li>Clinical Quality Measures</li> <li>Generic/Brand Prescribing Patterns</li> <li>Member Access</li> <li>Best Practice Measure</li> <li>Electronic Health Records Implementation (EHR)</li> <li>Electronic Prescribing Implementation (eRX)</li> </ul> A sample report is included in this unit. The report is available online via NaviNet.   |
| Performance<br>Profile Graph<br>Pages – Revised<br>For Fee-For-<br>Service<br>Payments | The performance profile graph pages of the fee-for-service detail reports were<br>modified for the pay-for-performance program, which includes the key drug<br>utilization indicators section, quality trends, Rx trends and costs, and provides a<br>visual snapshot of information in the report. Information displayed is practice-<br>specific and based on the current quarter and available previous quarters or year.   |
| The Incentive<br>Trend Report –<br>For Only Fee-<br>For-Service<br>Payments            | <ul> <li>As of January 2006, a quarterly Incentive Trend Report for only the fee-for-service payments is available online through the Provider Resource Center. The Incentive Trend Report/Fee-for-Service provides two separate reports:</li> <li>The first report is a Summary, listing the QualityBLUE incentive payment, level and number of select E&amp;M services for a 12 month reporting period.</li> <li>The second report is a Claim Detail listing of claim number, procedure code, member ID, DOS, Paid Date, Incentive Level (\$3, \$6 or \$9) based on the number of select E&amp;M services, and the claim payment.</li> <li>Note: This report will not be mailed. This report should be kept for your records, and be used to review the payment trends for your practice. If your practice is not NaviNet enabled, this report is not applicable.</li> </ul> |

## 7.1 Qualifying for QualityBLUE Fee-for-Service Payment,

Continued

The QualityBLUE FFS payments are based on the QualityBLUE quality Composite performance measures shown in the table below. Quality Performance Measures

| Measure                               | Based on  | Max score | Refer to<br>Chapter,<br>Unit, and<br>Page |
|---------------------------------------|---|-----------|---|
| Clinical Quality                      | The clinical quality categories specific to<br>each specialty with their corresponding<br>expected quality guidelines | 65        | 7.2<br>Page 2                             |
| Generic/Brand Prescribing<br>Patterns | The percentage of prescriptions that are written for generic drugs  | 30        | 7.2<br>Page 29                            |
| Member Access                         | Average office hours and non-traditional office hours   | 5         | 7.2<br>Page 33                            |
| Best Practice                         | Clinical Improvement Activity   | 5         | 7.2<br>Page 37                            |
| EHR                                   | Electronic Health Record Implementation   | 5         | 7.2<br>Page 43                            |
| eRX                                   | Electronic Prescribing Implementation   | 5         | 7.2<br>Page 45                            |
| Maximum Total Quality Score           |   | 115       |   |

Ineligibility If any practitioner within a practice has been cited for network non-compliance or is in the sanctioning process, the practice is ineligible to participate in the QualityBLUE Program.

The three categories of non-compliance are:

- Quality of care concerns
- Unacceptable resource utilization
- Administrative non-compliance

The practice is ineligible to participate in QualityBLUE for at least one full quarter immediately following the citation or sanctioning date.

### 7.1 Qualifying for QualityBLUE Fee-for-Service PaymentQualityBLUE Reports Accessible via NaviNet

| Online<br>Resources For<br>PCPs | <ul> <li>Network PCPs can utilize the online Provider Resource Center, accessible via<br/>NaviNet or either of our public member sites, which includes helpful reference<br/>material related to QualityBLUE.</li> <li>The QualityBLUE program is detailed in the Highmark Blue Shield Office<br/>Manual, Chapter 7.</li> <li>Data submission forms for the Best Practice, Electronic Health Record (EHR),<br/>and Electronic Prescribing (eRx) quality measures are available for<br/>downloading under the QualityBLUE Physician Pay-for-Performance<br/>Submission Forms.</li> <li>In January 2006, two new reports were first made available on the NaviNet<br/>Plan Central page, under a new QualityBLUE section of the menu. They are</li> </ul> |
|---------------------------------|---|
|                                 | <ul> <li>Fian Central page, under a new QualityBLOE section of the mend. They are the Clinical Quality Patient Names Report and the Incentive Trend Report/Fee-for-Service.</li> <li>The Clinical Quality Patient Names Report provides a convenient "check list," including patient name, ID number, date of birth and an indicator ("yes" or "no") on whether or not the expected quality guideline was met for each patient. This report can be viewed online or opened as an excel version. It can also be sorted to review and follow up on patients in need of specific care, per the quality guideline.</li> </ul>   |
|                                 | <ul> <li>The Incentive Trend Report/Fee-for-Service provides two separate reports.<br/>The first report is a Summary, listing the QualityBLUE incentive payment, level and number of select E&amp;M services for a 12 month reporting period.<br/>The second report is a Claim Detail listing of claim number, procedure code, member ID, DOS, Paid Date, Incentive Level (\$3, \$6 or \$9) based on the number of select E&amp;M services, and the claim payment.</li> <li>As of April 2006, the Detail Report is also available for: Fee-for-Service – Quality and/or Capitation – Quality. Beginning January 2007, only a Fee-for-Service Quality report will be generated.</li> </ul>   |
|                                 | • The Detail Report provides several pages of practice specific information such as: the summary calculation for eligibility and incentive level, graph(s), clinical quality, member access, generic/brand prescribing patterns, best practice, electronic health record and electronic prescribing.  |
